

# Gyasik Núñez

[ Web Developer ]

I'm a web developer and musician who enjoys technology, gaming, and traveling. My family is from Chile and I currently live and work in South Florida. I'm a big supporter of ocean conservation, marine life, and keeping our earth clean. In my free time, I like to play guitar, go diving or hiking, and travel to new countries.

Liquid

Shopify

BigCommerce

Optimizely

## PERSONAL PROJECTS

### Portfolio (2017 – Present) [↗](#)

This is my personal portfolio website where I keep all of my past projects I've built regarding Web Development. It showcases full-stack JavaScript applications, static web pages, and anything related to programming exercises or projects.

### Iron Snake JS (02/2018) [↗](#)

This is a Canvas based JavaScript game that I created in one week for Module 1 of Ironhack. It is a remake of the classic game "Snake".
